DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a) because they fail to show noise whitener as described in the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1 –30 are allowable over prior art of record. The prior art of record failed to teach an estimator for estimating a modulation index and frequency offset of a received continuous phase modulated signal the estimator comprising at least two filters for filtering the CPM signal, a calculator for calculating an a and b value, a processor for receiving a signal output by each of the at least two filters the a value and the b value and wherein the processor is adapted to calculate estimates of modulation index and frequency offset from the signals received by the processor and the received a value and the b value as claimed in independent claim 1 and similarly claimed in claimed in independent claims 6, 12, 17, 23 and 24).

Conclusion

This application is in condition for allowance except for the following formal matters:
